Our Mission

We protect the people, property and profits of our clients by providing expert guidance, training and leadership on all environmental health and safety issues.

SMART Safety Group is a full service safety company providing Safety and OSHA Training, Safety Equipment/Products, Safety Services, Consulting and Staffing. Founded in 2003, by Vince Hundley, SMART Safety Group (SMART) is a California Corporation. Vince, the President & CEO of SMART Safety Group, also serves as the Safety Director of Associated General Contractors (AGC) of San Diego where he oversees all safety training staff and regulatory affairs.

SMART Safety Group offers training to our growing list of Customers and to all industries requiring training in order to keep their employees safe and healthy while complying with current OSHA regulations. Our training is conducted in classrooms onsite or offsite as the subject dictates. Delivery modes include video presentations, booklets/binders, Q & A, testing and actual demonstrations.

Our clients, who have outsourced their entire safety needs to SMART Safety Group, have repeatedly asked for products and equipment, which led to our decision to expand in that direction. Our expertise in so many safety issues and topics leads us to be a knowledgeable supplier of all facets of safety equipment – fall protection, PPE, arc flash protection to name a few. All are now available online at www.SmartSafetyGroup.com – online store.

SMART Customers consider us part of their team. We provide qualified, skilled and well-trained staff either SMART Safety Group consultants or temporary staff/SSHO as needed on a jobsite. Our customers receive careful assessments of their safety policy, personnel, procedures and performance. We work closely to fine-tune our client's safety policy, recommend needed training and necessary equipment. We provide an individualized safety program, conduct ongoing audits, safety meetings in the field, management meetings, and help when corrective actions are needed, in addition to providing OSHA representation when necessary.

Clients Include: Associated General Contractors, Baker Electric Inc., City of San Diego, City of Escondido, Echo Pacific Construction, Inc., Jackson & Blanc, Schilling Paradise Corporation, SPAWAR Systems Center – Pacific, Straub Construction Inc., UC San Diego
